Product Specification Report

Rev. 1.0

Removes even the most stubborn dirt, wax and polymer topcoats, without rinsing

POWER HOUSE

Powerful cleaner and wax remover

FEATURES:

| | |
|---|--|
| Powerful | The unique combination of surfactants, sequestering agents and solvents removes stubborn dirt, wax and polymer topcoats and no rinsing is required. |
| Also for difficult to reach places | Cleans small, hard to reach surfaces and other awkward areas. |
| Versatile | Excellent for use on surfaces consisting of stainless steel, imitation leather, chrome, plastic, mosaic, tile, enamel and veneered surfaces, ceramic or synthetic tiles. |

APPLICATIONS:

Ideal for use by maintenance companies, repair shops, retailers and beverage distributors, hotels, motels etc.

INSTRUCTIONS FOR USE:

Shake the can well before use.

For cleaning: Spray evenly on the surface from a distance of around 25cm. Spread with a cloth, then immediately wipe off with a dry and clean cloth.

For the removal of old wax: Spray on a small surface, and use a brush or a cloth to remove the wax layer. Use a damp sponge to remove the dirt.

PRECAUTIONS FOR USE:

Observe the general precautions on the packaging. On painted surfaces, a preliminary test is recommended.

SPECIFICATIONS:

Form.....Aerosol
 Propellant.....Hydrocarbon
 Contents.....± 600 ml
 Flammability.....Non flammable

APPROVALS:

NSF A8 registered as a product used for degreasing surfaces and equipment in non-process areas (registration number 152106).

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
