

Product Specification Report

1.0/51491/0418

Parts washer with brush, made of robust plastic, specifically created for use with Biopower Cleaner. Compact and robust plastic parts washer, to clean mechanical parts with the included brush.

BIOPOWER SYSTEM

Parts washer

Compact and robust plastic parts washer, to clean mechanical parts with the included brush. Biopower System is made to effectively and quickly clean mechanical parts and to remove oil and grease without the use of solvents. Biopower Cleaner is non-toxic and non-flammable. With the help of Biopower Tabs, containing billions of micro-organisms, the liquid is regenerated. This keeps it effective over a long period of time, and makes it safe for the operator and the environment. The parts washer maintains the temperature of the liquid at 38 °C. This results in greater effectiveness of the detergent and the micro-organisms in the liquid. The provided cover with sealing drastically reduces the evaporation of the solution, allowing to save on electricity and detergent use.

TECHNICAL SPECIFICATIONS

Power supply	110 V / 230 V 1 phase + T
Working temperature	38°C
Resistor power	1 KW
Power consumption	200W/h (-25% with Eco Mode)
Internal dimensions (tank)	790(W)x420(D) x180mm(H)
Overall dimensions	905(W)x650(D) x1080mm(H)
Max weight for worktop	100 kg
Stainless steel mesh filtration system	Double 700µm + 140µm
Movable	4 integrated wheels
Pump	1140 l/h
Empty weight	± 46 kg
Reservoir capacity	55-100 litres
Reservoir capacity for immersion	30 litres
