

Product Specification Report

1.0/74850001/0117

SUPERSOFT is a highly active, cationic based, concentrated fabric conditioner for commercial and hospital laundry use. It is suitable for all types of fabric.

SUPERSOFT

High activity perfumed fabric softener

FEATURES:

High performance	The advanced formulation of SUPERSOFT imparts a soft handle to all natural and synthetic fibres. It is based on a specialised compound which is readily attracted to the fibres to produce a high degree of softening.
Pleasantly perfumed	The product has a pleasant perfume which is sustained throughout the drying cycle.
Economical	Great results also at low dosages.

APPLICATIONS:

A fabric softener suitable for all types of laundry.

SPECIFICATIONS:

Form Liquid
 Colour Light green
 Odour..... Floral
 Density (20°C) 0,982 g/cm3
 Solubility in water Fully miscible

INSTRUCTIONS FOR USE:

Usage quantities depend on the desired degree of softness. As a guide, SUPERSOFT should be added at the rate of 150 – 225 ml per 45 kg dry weight of fabric.

Also suitable for use in automatic dosing systems.

PRECAUTIONS FOR USE:

For more information, consult the MSDS.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
