

# Product Specification Report

1/96230001/1017

Highly concentrated alkaline solid dishwashing detergent for use in mechanical dishwashers.

## SDW 3 HARD WATER

Solid detergent for hard water conditions

### FEATURES:

<b>Hard water compatible</b>	Specially formulated for use in hard water (> 30 °f - 17° dH - 300 ppm) circumstances.
<b>Economical</b>	Excellent results are obtained at concentrations 3 times lower than a liquid product.
<b>Easy to use</b>	The unique cartridge and its dispenser make the product very easy to use.
<b>Effective</b>	The alkali source and surfactants immediately dissolve all soiling for quick and easy removal of protein, starch etc.
<b>Safe</b>	Does not contain phosphates, chlorine

### APPLICATIONS:

For use in mechanical dishwashers.

### SPECIFICATIONS:

Form ..... Solid  
 Colour ..... White  
 Odour..... Characteristic  
 pH..... ± 12 (10,0 % w/w)

### COMPATIBILITY:

Highly alkaline product. Do not use on aluminium and silver plating.

### INSTRUCTIONS FOR USE:

Remove the cap and place the container upside down in Zep's SDW TOP DOSING SYSTEM. Start the water flow so the product dissolves in the water. Maximum washing results are obtained at 55 - 60°C (tank water).  
 For areas with water hardness >30 °f - 17° dH - 300 ppm, a hard water rinse additive is recommended.

Dosage: 0.5 - 1.5 g/l depending on soiling present and water hardness.

### PRECAUTIONS FOR USE:

For more information, consult the MSDS.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
