

# Product Specification Report

Rev. 1.0

**NATURALLE is a product made to remove grease and organic fats (vegetable, animal, sugars and proteins) from all types of surfaces.**

## NATURALLE

## Multifunctional bio cleaner and degreaser

### FEATURES:

<b>Performing</b>	Streak-free, easy rinsing for a superior finish.
<b>Biological cleaning</b>	Contains enzymes that break down organic fats, ensures deep cleaning and high degreasing action, also on porous and uneven surfaces.
<b>Dual action</b>	Immediate cleaning power of surfactants is enforced due to enzymes.
<b>No rinse-off</b>	Saves time and money.
<b>Neutral pH</b>	Non-caustic to surfaces.
<b>Pleasant fragrance</b>	Leaves a pleasant fresh fragrance on the treated surfaces.
<b>Safe</b>	Non-flammable, free of solvents, acids or alkali. Biodegradability $\geq 95\%$ . Product is also applicable in the food industry.

### APPLICATIONS:

Food industry, associations, bars and restaurants, fast-foods, reception offices, schools, airport terminals, auto repair shops, garages, fuel stations, car washes, cleaning and maintenance services, etc. The bacterial activity prevents the formation of bad odors or blockages in pipes and drains. Compatible with collection wells where it continues to treat organic waste.

### SPECIFICATIONS:

Form .....Liquid  
 Colour .....Yellow  
 Odour.....Fresh Grass  
 Density at 20 °C .....1,02 g/cm<sup>3</sup>  
 Solubility in water .....Soluble  
 pH at 20°C.....8,0 ± 0,5

### PRECAUTIONS FOR USE:

To ensure precise dilution, we recommend usage of an automatic dosing device. It is ideal to dilute the necessary quantity for the entire day. Do not mix the product with acidic, alkaline or disinfecting agents.

### COMPATIBILITY:

Floors in concrete, cement, stone, ceramics, tiles, slabs gravel, asphalt and other types of porous surfaces.

### USE:

Naturalle may be used in washing machines, single disc scrubbers, spraying devices, etc.

- Stainless steel equipment in food laboratories: a 1 to 2 % solution is used in a spraying device.
- Industrial floors: 2% solution used in washing machines.
- Ceramics, tiles, colour coats, concrete, wood and all synthetic coats: 1 to 2 % solution in washing machines.
- Carpets: up to 2 % solution is used in a spraying device or if applied by hand.
- Chrome: up to 1 % solution is used in a spraying device.
- Glass: up to 1 % solution is used in a spraying device.
- Car windscreens and lights (effective against mosquitoes): up to 1 % solution is used in a spraying device.

Suspensions of industrial vehicles: used in a high-pressure cleaner in a solution of 1 to 2 % depending on the degree of soiling.

Vehicle interiors (fabric, leather, leatherette, carpets): up to 1 % solution is used in a spraying device or if applied by hand.

Fireplace glass: up to 2 % solution is used in a spraying device.

After use empty the bucket in the ductwork where it performs its function of bio-degradation.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
