

Superior Solutions

STAINLESS

Lavatory and urinal cleaner. Thick, powerful and long lasting. Safe on stainless steel

- Removes limescale deposits from sanitary fixtures such as toilets, showers, wash basins, sinks...
- Revives ceramic wall tiles and taps.
- Dissolves even the most stubborn lime deposits without harming plastic or rubber.
- Non-corrosive, does not contain hydrogen chloride, trouble-free cleaning of metal parts.
- Pleasant fresh mint scent.
- As the product is thick, it adheres even to vertical surfaces – giving it more time to cut through grime.

APPLICATION

STAINLESS removes limescale and stains including iron and copper from above and below the water line and under the rim. Prevents a build-up of scale and bacteria that cause unpleasant odours and also prevents any build-up in drains to keep them flowing freely. When STAINLESS is used daily, further build-up of stains and bacteria is prevented and washrooms are kept fresh and fragrant at all times. STAINLESS is suitable for use in lavatory bowls and urinals including all coloured ceramics, toilets, bathrooms, sinks, taps, water fountains, tiles etc.

INSTRUCTIONS FOR USE

To remove limescale from sanitary fixtures: Always use undiluted. Cut off the tip of the nozzle. Apply to the surface to be treated and let stand a few minutes. Rinse liberally with clean water.

To clean ceramic surfaces / taps: Dilute STAINLESS in lukewarm water (1 part product per 3 parts water). Use a sponge to apply the solution. Let stand. Rinse with water and wipe dry.

CONDITIONS FOR USE

See the precautions for use listed on the packaging. Avoid contact with magnesium, aluminium, zinc, nylon, polished marble and galvanised surfaces. Do not freeze.

SPECIFICATIONS

Type: Thick liquid
Colour: Pale blue
Scent: Mint
Density: $\pm 1.06 \text{ g/cm}^3$
pH: ± 2
